Sir:

Please amend the above-captioned patent application as follows:

IN THE CLAIMS:

1. (Amended) A circular saw comprising:  
a table having an upper surface for placing a workpiece thereon;  
a saw unit having a saw blade mounted thereon;  
means for supporting said saw unit on said table such that said saw unit is [movable] adapted to move in a horizontal direction parallel to said upper surface of said table and is [movable] adapted to move in a vertical direction relative to said upper surface of said table; and
